

Dear:

I am the coordinator for the Imperial Barrel Award competition of the Southwest Section of the AAPG for this year. We will be holding the section competition on March 19, 2016, in Dallas, Texas, on the campus of Brookhaven College. The event will take place beginning at 8:00 AM and will take much of the day.

You have been proposed as a possible judge for the competition. You are a recognized contributor and mentor for the Petroleum Industry. Please consider joining us for this competition and helping to judge these presentations. The limitation is that an individual may only serve as a judge every three years. If you have served as a judge in that time period, let me know. Also, if you cannot serve this year, let me know if you would like to be considered in the future.

This year's competition will include teams from the following schools in our area:

University of Texas, Permian Basin

University of Texas Dallas

University of Texas Arlington

University of Texas El Paso

Sul Ross University

Texas Christian University

Texas Tech University

I have been involved as a member of the IBA committee, or as a judge for several years. It is exciting to see the level of interest and excitement that students put into their project and their presentation. Please consider joining us in Dallas. I invite questions, please contact me directly. Your prompt response will be appreciated.

David B. Coddling

Manager: Geosciences
