

MONDAY - APRIL 9th			TECHNICAL SESSIONS - DETAILS BELOW	
8:30	- 9:30	1:00	Keynote Address - Allen Gilmer, DrillingInfo	Juarez Room
9:30	- 10:00	0:30	Morning Break	Exhibits - Hall A
			General Session	
10:00	- 10:25	0:25	Robert Trentham	Understanding and Expanding the Science of Residual Oil Zones
10:25	- 10:50	0:25	Evan Gragg	Geomodeling, Geomechanics, and Evaluating the Subsurface for Carbon Storage
10:50	- 11:15	0:25	Troy Tittlemeier	Exploring the Southern Extent of the Alpine High – Updated, 2018
11:15	- 11:40	0:25	David Paddock	Landing, sweetspotting, and water avoidance solutions for the Permian Basin: the role of surface seismic
11:40	- 12:05	0:25	Milly Wright	TBD - had the flu - abstract coming by Tuesday
12:15	- 13:35	1:20	All Convention Luncheon - Tania Campbell, Oxy	Juarez Room
			Seismicity in West Texas – Geologic Influences	Topic / Title
13:35	- 14:00	0:25	Peter Hennings	CISR-TexNet integrated seismicity assessment of Permian Basin region
14:00	- 14:25	0:25	Alexandros Savvaidis	Seismicity in W. TX as recorded by TexNet
14:25	- 14:50	0:25	Diane Doser	Permian Basin Seismicity: Looking Backwards, Moving Forwards
14:50	- 15:15	0:25	Aaron Velasco (tentative)	Seismology of West Texas
15:15	- 15:45	0:30	Afternoon Break	
15:45	- 16:15	0:30	extended break for poster viewing	
16:15	- 16:40	0:25	Chris Zahm	Structural history of the Permian Basin area, setting up faults and stress
16:40	- 17:05	0:25	Jens Erik Lund Snee	Detailed mapping of stress orientation and relative magnitude in the Permian Basin and implications for fault slip potential
17:05	- 17:30	0:25	Randy Keller	An Overview of the Tectonic Setting of the Permian Basin, Its Deep Structure, and the Regional Historical Seismicity
18:30	- 20:30	2:00	Social	W XYZ Bar at Aloft in the Historic Bassett Tower
